

MICRONIC | SAMPLE STORAGE | TUBES

3.00ML SCREW CAP TUBES 24-WELL CONFIGURATION

DO YOU NEED A FULLY TRACEABLE STORAGE SOLUTION FOR TISSUE SAMPLES? IF SO, THEN MICRONIC OFFERS THE 3.00ML 2D DATA-MATRIX CODED EXTERNALLY THREADED SCREW CAP TUBE IN A 24-WELL CONFIGURATION. THE TUBE IS SHALLOW, HAS A BROAD OPENING AND A FLAT INNER BOTTOM, ENABLING EASY LOADING OF TISSUE SAMPLES (0.5CM² TO 1.0CM²) USING TWEEZERS.

Micronic 3.00ml tubes have a working volume of 2.50ml making them ideal for use in ultra-low temperature storage of tissue materials in biobanks. In addition to storing tissue samples, the flat bottomed 3.00ml tube also provides an ideal solution for secure transportation of solid biological samples.

With a unique laser-etched 2D Data Matrix code and human readable code on the tube bottom, and a large human readable code on the tube sidewall, the 3.00ml tubes provide easy and unambiguous identification and storage of donor and transplant samples. For highly accurate and reliable results - Micronic 3.00ml tissue tubes are produced from medical-grade Polypropylene.

Micronic 3.00 ml tubes have a wide shallow opening enabling easy loading / removal of tissue samples (0.5cm² to 1.0cm²) using tweezers. Produced using a double injection

moulding process - each Micronic 3.00ml tube has a black code surface that cannot be separated from the tube and a transparent sidewall enabling easy visual checking of the enclosed tissue sample. To ensure high sample integrity, even down to vapor phase liquid nitrogen temperatures, the 3.00ml tissue tube includes a novel 'single turn' TPE / Polypropylene screw cap that stays securely in place even during repeated freeze / thaw cycles.

Available features

- Sterile, gamma radiated
- Precapped with Screw Caps

INFORMATION

- External thread
- Wide shallow opening
- Partially transparent sidewalls
- Unique 'single turn' TPE / Polypropylene Screw Cap
- Screw Caps available in 6 different colors for easy visual identification
- Standard available with a unique laser-etched 2D Data-Matrix code on the tube bottom and a human readable code on the sidewall
- 100% quality control on 2D codes
- Black sidewalls cannot come in contact with the sample
- Available in bulk and in rack
- Class 7 clean room production
- RNase/DNase and Pyrogen free

MICRONIC | SAMPLE STORAGE | TUBES

SPECIFICATIONS

MATERIAL	HIGHEST PURITY PP
NET VOLUME	2.50ML
RESISTANCE	CHEMICAL SOLVENTS
CODING	2D DATA-MATRIX
TEMPERATURE	VAPOR PHASE LN2 TO +100°C

ORDERING INFORMATION

3.00ml 2D Data-Matrix coded Externally threaded Screw Cap tubes

MP52480	3.00ml 2D Data-Matrix coded Screw Cap tubes in Bulk	240 tubes
MP52480-Z01	3.00ml 2D Data-Matrix coded externally threaded Screw Cap tubes precapped with Grey/Natural Screw Caps in Bulk	240 tubes
MP52480-Z04	3.00ml 2D Data-Matrix coded externally threaded Screw Cap tubes (black) precapped with Grey/Yellow Screw Caps in Bulk	240 tubes
MP52480-Z00	3.00ml 2D Data-Matrix coded externally threaded Screw Cap tubes (black) precapped with Grey/Orange Screw Caps in Bulk	240 tubes
MP52480-Z02	3.00ml 2D Data-Matrix coded externally threaded Screw Cap tubes (black) precapped with Grey/Red Screw Caps in Bulk	240 tubes
MP52480-Z03	3.00ml 2D Data-Matrix coded externally threaded Screw Cap tubes (black) precapped with Grey/Blue Screw Caps in Bulk	240 tubes
MP52480-Z23	3.00ml 2D Data-Matrix coded externally threaded Screw Cap tubes (black) precapped with Grey/Light Green Screw Caps in Bulk	240 tubes

Micronic has a broader product range than the products listed under ordering information. For our complete product portfolio, please send your e-mail to sales@micronic.com or contact us by phone.
